

Pippin

Breed: Lhasa Tzu

Age: 3 yrs

Sex: Male

Weight: 15 lbs

THIS IS PIPPIN...and he is the apple of our eyes...even if he only has one! This sweet as pie, 2-3 yr old, 15 lb, golden boy has the softest coat ever! He came from South LA Shelter with an eye that needed to be removed. Now that his hair has grown back, he is as gorgeous as we thought he would be and you can even tell he is missing an eye <lol> He has such a wonderful temperament but he does have a bad habit – he likes to chew on door knobs! Only when he is bored ☹ We're not sure what happened to him, but it did not put a damper on his happy-go-lucky attitude! He is a little shy at first sometimes...but then he's a big player!! Pippin definitely needs another dog to fun around with. He has the cutest bark and never uses it until he wants something or it's meal time, and then he lets you know how

hungry he is! He is a GREAT eater! One thing we must warn you of...he is a toy monger. Every single toy in the doggie playroom, even those under the futon, has been pulled out and played with! And...he does not put them back in their place when he is finished! Like a child, he makes a mess! But he will fetch! Pippin would be great in a family with another dog and children over 10 yrs old. He is curious and happy, seems to be potty trained with outside access. Could you live with a sweetheart of a pup who just wants to have fun...and love you? He is ready to complete your family....He's waiting!!
