MEET ROBYN….a petite, sweetheart of an adorable 10 lb, 17 month old (DOB 11/14/2023), gold and white Shih Tzu/Bichon….heavy on the Shih Tzu! Robyn also came from a breeder (cousin to Lupin), and when her pet parent found herself in the middle of a divorce, she realized she couldn't give Robyn (and Lupin) the attention, activity and training necessary to help them both become model citizens. So, she surrendered them to Lhasa Happy Homes to find the perfect forever homes.

Robyn has only been here a short time, but her personality has blossomed in just a few days! When she first arrived, she ran and hid from me! Now, she is kissing me until the cows come running home! She is very active, demonstrative and playful. She does demand your attention when she wants it….and likes to snuggle up to Lupin (her foster roommate) so it's pretty clear she wants a companion canine. Doesn't need to be Lupin, but she must give her 100% approval before she commits!

Robyn will bark if she is left alone without another dog or person. She will settle down, but she is young and would do best with training. She is pretty good with her potty training but needs practice! She will have an occasional accident and will need to get acclimated to a new environment. A yard would be wonderful…kids over 8 yrs old…a playful canine companion and lots of love and attention for this pipsqueak of a toddler! Does Robyn sound like a dog you could love for life?
