INTRODUCING ALDO....the wonder dog!! Aldo is a majestic 2-3 yr old, Lhasa Wheaton (with short legs), at 21 lbs, his golden coat is soft as silk and he loves to cuddle. Aldo is bigger than most of our kids, and he stands out as a real charmer. He is not fat – very strong and connected. He prances on a leash, meets the other dogs in the neighborhood and is a standout. Aldo is a little cautious of the bigger dogs – but ends up kissing them to say hello! Speaking of kissing, he is a BIG kisser – and his tongue flaps on your face when he's doing his work!! Aldo seems to be potty trained, but we can't guarantee at your house. He is not alpha or submissive – he is somewhere in the middle and accepts all love. Best home for him would be a family with a home and yard....one that will take him to sports events and bring him as a member of the family. Does that sound like you?
