

Bonnie Bluebell

Breed: Maltese/Shih Tzu ?

Age: 3-4 yrs

Sex: Female

Weight: 8 lbs

*****ADOPTION PENDING*****

MEET "WEE" BONNIE BLUEBELL...a wonderful little 8 lb, charcoal and white, 3-4 yr old, Maltese Shih Tzu, with an underbite that walks into the room to introduce her! Found wandering on the streets downtown, attempts to find her people were unsuccessful

□

Of course, this little angel was very nervous when she arrived, but she understood love and shortly after she got here, she was

calm and asking for attention. She loves to burrow in pillows, give you kisses – we really don't know how she is with cats, but she can be hyper at times. After all, she's a youngin'! She really doesn't have much interest in other dogs, and while she generally gets along with them fine, we believe she would prefer to be the only dog in the household. She is very welcoming when guests come to visit! We think she came from a home where she wasn't allowed to be on the couch or bed but once she learned it was OK with us...she joined the family and loved it! She is definitely a Velcro dog, so if you don't want four furry paws to follow you, she's not your girl. Bonnie Bluebell is eager to please and tilts her head in the cutest way when she is listening to you! She likely would not be great for a senior as she is very active and always at your feet! She wants to be part of the action...we haven't found anything wrong with her (except she has extra toes)!! Bonnie just wants to get and give love and she would be wonderful in any family (kids 8+ only, please!). She even naps while you are working at home! Of course, she does the usual barking at deliveries and such... she's a dog afterall (but don't tell her). Do you have a heart for this little morsel of love?
