MEET CAMI...a little truffle from East Valley who could not be sweeter if she tried! She is 4 yrs old, 14 lbs, soft as silk and her breed is still a mystery! A little raccoon, a touch of terrier (no shedding), Poodle? Schnauzer? We still don't know quite what she is besides cute...Below is what she looked like before they shaved her. ☐ She was matted to the bone and had little sores all over her body...but she has recovered well and soooooo easy to love!

While Cami is still a bit of a puppy (even at 4 yrs) her fosters think she is a total luvbug! She is kissy, happy, cuddly, quiet, hyper, alert and great with everyone – from kids to adults and everyone in between! While she loves to follow you everywhere, she does not have separation anxiety and she is not a whiner! She needed help in the potty training department, but she is smart, a quick study and her fosters have had success with her! She now seems to “get it” but we never guarantee at your house. We believe she MUST have another small, active, playful dog to show her the way...and the best home for her would be one who wants another sweetheart of a dog to join the family, who will have patience and train her. She is too hyper for a mature household.

Happiness is Cami's middle name!! She will show you with her cute little hop taking her whole body slightly airborne when she is exhibiting her joy! Could you use a little more bliss in your household? Let us know!
