Chloe

Breed: Shih Tzu

Age: 4-5 yrs

Sex: Female

Weight: 9 lb

*****ADOPTION PENDING*****

MEET MISS CHLOE…a precious, petite, liver colored, 9 lb, 4-5 yr old who came from the SEAACA shelter. We were told that her nostrils were too narrow and she would need surgery…that she was a senior and they wouldn't spay her because of her medical. Well, she isn't a senior, she didn't need nostril surgery, we had her spayed and she is just an absolute doll.

If you have any doubt about Chloe's affinity for toys, the 3rd picture should answer that question for you! She is curious about everything; she is very playful and seems to just love life! One of Chloe's favorite things to do is ZOOM and ZOOOM some more all over the yard, so she should probably have one of

her own to happily share with another happy, sweet, small dog! If you are looking for a sedate lap dog, Chloe would not be a fit! She needs “entertainment” and she will entertain you! We know that she would love to have someone take her with them everywhere, as she adores attention…give her belly rubs and love her to pieces…probably not the right fit for a mature home though as she is really too active

We never guarantee, but Chloe’s potty training, with a yard, seems pretty good, and she will use a pp pad in lieu of walk if needed. She really wants to please you…she is smart and funny and she will give you years of joy and happiness! Does she sound like a muppet you could love?
