

DannyBoy

Breed: Shih Tzu X

Age: 4 yrs

Sex: Male

Weight: 13 lbs

MEET DANNY BOY...who came to us to us on St. Patrick's Day! This little tan/black, 13 lb, 4 yr old Shih Tzu mix came to us with a ginormous inguinal hernia, which is why he was probably given up :(. We had it fixed and he's a healthy, happy boy! Aside from food, DannyBoy's favorite thing is you! He is mellow and loves to play with his toys but doesn't really care about other dogs. He likes to meet and greet...but he's not really into playing at this point! Does love to play with you tho! Loves to cuddle, is very polite, can go on hikes or long walks with you. No separation anxiety (can be alone up to 4 hours), is very well mannered and goes to bed when he is told (don't we wish kids would do this!!) Loves to go on walks at least three times a day, and definitely could use some training on the leash!

DannyBoy is a wonderful dog and now the only thing left that he needs is a forever home. Could that be with you? He's waiting!!
