Donovan

Breed: Maltese Pomeranian

Age: 3 yrs

Sex: Male

Weight: 11 lbs

MEET DONOVAN…..a handsome, small, 11 lb, creamy white, 3 yr old mix of some breed that doesn't shed! He can be whatever you want him to be because we're not exactly sure! His coat is soft like a Pomeranian cut down…but he doesn't shed, but he trots like a Maltese! He twirls for treats and when he gets excited…he is very spry but not hyper. He LOVES to play fetch and is good with other dogs, just a little skittish around them sometimes. His canine foster buddy is a puppy, so he's a little taken back by her! One thing about Donovan is he is just the sweetest boy ever. He loves everyone, including kids, and is a kissy face monster, so if you don't like kisses, you won't like him! He doesn't like being left alone, so he should have a person or another canine buddy around if you are gone, but

likely wouldn’t like being alone all day because he is a “people person!!” This little man is close to being potty trained on a regular schedule – he knows how to use the doggie door but is a little afraid of it! Donovan is smart and wants to please…he would be wonderful family dog if you are in search of one…and he is adorable too! Interested?
