Weight: 12 lbs

MEET DUDLEY – a 12-lb, 2-yr-old, white-with-tan Lhasa Apso mix with 3 legs! This poor little guy was hit by a car and had to have one of his rear legs and part of his tail amputated. But Dudley doesn't let a few missing parts hold him back – he loves going for walks! He does take a minute to warm up to new people, but he is very human-oriented and a total lovebug once he knows you! He's very calm for a 2-year-old. He will bark to alert you when someone's at the door, but is generally a quiet pup. He'd love to go to a home where his humans are around a lot to give him all the attention and cuddles he deserves. Kids over 8 yrs old welcome! Dudley seems to be housetrained in his foster home, but we never guarantee. Do you have space in your heart for this sweet, loving tripawd?
