

Dylan

Breed: Yorkshire Terrier

Age: 2-3 yrs

Sex: Male

Weight: 6 lbs

THIS IS DYLAN....a mischievous, 6 lb, silver, 2-3 yr old Yorkshire Terrier mix who came from the Carson Shelter with a horribly infected eye that needed to be removed. His owners dumped him like this and we have no words for them – well, we do but they wouldn't be nice! Having one eye does not stop this little firecracker for a minute!! While he does have energy, he also can be very mellow and independent! Dylan loves to play, but he can be a bit possessive of his toys and picks and chooses his friends, so we think he'd be best suited as an only dog. He gives lots of kisses and is getting the hang of potty training...already learned the doggie door! But no promises at your house! He is relatively quiet and doesn't bark, but he does snore! Dylan is very strong willed about what he doesn't

like, and very good natured about what he does! He loves his foster family and to play with his sibblings...and if you have another dog, they would have to meet him. Really, all Dylan needs is love and structure and he will be awesome! A dog savvy home with adults would be best for him. He will give you years and years of smiles and cheer.
