

Fanci

Breed: Shih Tzu

Age: 8 yrs

Sex: Female

Weight: 12 lbs

*****ADOPTION PENDING*****

MEET MISS FANCI pants! Talk about sweet? There is a picture of Fanci in the dictionary next to the word! This 8 yr old, gray/white, 12 lb, Shih Tzu can only be described as a baby doll!! She came from the shelter with a broken pelvis/dislocated hip, dirty/yeasty skin, an eye infection, and the best temperament a dog could have, despite her maladies. She is one tough cookie...but seems to still be a little shut down! She is very quiet and a perfect lap dog...but she doesn't seem to have her mojo back OR she might just be the epitome of a lap dog! Now, her favorite thing to do is lay her head on your shoulder and be your babygirl. Fanci even seems to be potty

trained, but we don't ever guarantee. She is quiet as a mouse, a great eater and as her foster says, "the easiest dog ever!" The one thing we want for her most of all is to belong as part of a family. Love will fit perfectly on this fancy girl!! Fanci could benefit from some water therapy to help her get stronger, but she is tooling around just fine! She will need eye drops, as she has a slight case of dry eye, but she sees great and this is for her comfort. Her eyes are only slightly dry. Does this sound like a girl who could steal your heart? She has stolen ours!
