

Finn

Breed: Maltipoo

Age: 3 yrs

Sex: Male

Weight: 7.5 lbs

MEET FINN....who was so frightened in the shelter that they deemed him rescue only. That being said, he is not aggressive but he is skittish and needs time to decompress and settle down. This soft and cuddly, 7.5 lb, cream/gold, 3 yr old Maltipoo is a gem. He longs for love and attention. He does not like being left alone, so he definitely should have another canine to keep him company! He will bark if he is left alone, but eventually settles down. We think he would be better off in a home where there is a backyard for training purposes...although he is getting the hang of pottying outside and we have not seen him lift his leg once! A squatter!! Finn loves to give kisses and let you know how much he appreciates you. He is a BIG snuggler! While he is active and loves to play, he is also

chill and happy. He is good in the car, loves his walks, is curious and interested in everything and would be good with kids over 10 yrs old. Finn could definitely benefit from training, as he is young and we don't think he got the love and attention he is so deserving of! But we do want to warn that he is timid at first and will need time to acclimate. Occasionally, he will bark on a walk or pull on the leash, so he does need to work on this. If you have a little girl or guy who is looking for a companion/playmate...Finn is on the hunt!
