MEET FRISBEE...this 3 yr old, gold, 11.5 lb, Silky/Pom/Terrier energized bunny is very terrier in nature! Coming from the Riverside Shelter, he brought kennel cough with him but it didn't stop him for a minute! This is what he looked like directly out of the shelter...but our groomer had other ideas for him!

Frisbee wants to meet every dog on the street, check them out and introduce himself (in that order!). He LOVES attention and his walks! Never met a tree or bush he didn't like! He gets so excited, it's almost comical. He wants to be everyone's best friend, but not every dog wants to be his!! He can be a little "pushy" in the way he approaches dogs and playing – some dogs don't appreciate him! While he does mark outside, he has been good with his potty training with three walks a day and/or outside access. We believe he would like a buddy as he doesn't like being left alone... but it has to be the right one of his choosing! Like we said, he can be a little pushy!

This little guy was a bit fearful coming out of the shelter and was very nervous in the crate. Once he settled down, we were able to get a better idea of his temperament, which is so very friendly and happy. He gives great kisses to let you know he is happy. That being said, he is a terrier...so kids over 10 yrs old would be great. We think that Frisbee would love the park and hikes and an active lifestyle. Does that sound like you?
