MEET FROLIC…a precocious, 3 yr old, 6.6 lb, Morkie (as best as we can assess), who has the Maltese hair and size….and ticking on her back like a Dalmatian! She has silver tips on her ears and couldn't be cuter if she tried! She came from the Lancaster Shelter – she had a commitment to adopt and five interested parties and nobody showed up, so she became ours! Frolic earned her name…she loves to play and prance around, but she is very calm and quiet for the breed. She LOVES to snuggle up to you under the covers and just melts into your arms. Frolic would be okay as an only dog, as she is a pocket pooch and does get a little territorial (but she is good with other dogs) – she doesn't love sharing her human. She is good with older kids (over 8 yrs) and is absolutely charming! No better word suits her! This little girl will make any family a happy one…might that be you?
