MEET GINGER...a very lucky girl to be alive! She is an 11 lb, 7 yr old, golden red Shih Tzu X...and she was broken out of a hot car, with the windows closed, by the Police Department and taken to the Carson Shelter! She had five interested parties and we were the only ones who showed up...she is ours and we are soooooo happy!! Her sad "Emmett Kelly" clown eyebrows look so sad and when she first arrived, she was apprehensive and timid. Now, she is happy and as sweet as she can be! She loves to curl right up against you or sleep on your head! She loves to play with other dogs and adores toys...and she knows where to do her business, for the most part, but we couldn't guarantee at your house! Ginger does NOT like being left alone and she has a blood curdling cry! She is a little slow to warm up but when

she does it's remarkable. Might you have room in your heart for a little girl who just wants to love you and be loved back 100000%?
