THIS IS GRIFFIN…just a minute out of the puppy stage at 1 yr old, this active, loving, funny, 9.4 lb, gray/black, Havanese/Maltese mix is a character. Hard to know his breeds, but he is very soft, small in stature and so affectionate it's almost too much! Griffin LOVES to play with his foster buddies Onyx and Zuri. If someone would adopt a trio….these would be the ones! He definitely needs a canine companion! Griffin is like a scavenger and will finish up everyone's bowl of food left behind! For a little guy, he has a heck of an appetite! Griffin seems to be getting potty trained, but he will go on a pp pad in a pinch. He loves to play games with you when it's time to go for a walk….it's called "catch me if you can! I won't make it too hard!" He does well on his walks, he's great with other dogs, would be fine with kids over 8 yrs old and would love to call your home his own! He MUST go to a home where there is at least one other small, very playful, dog. The only time we hear him bark or make noise is when he is playing or chiming in with the others at the doorbell! Griffin is kissy, attentive, loves toys and his people and you won't find a more affectionate dog on the planet. Sound like a boy you could love?
