MEET HAILEY…..who comes from the San Bernardino Shelter and was mistaken for a Lhasa Apso! Not with those ears!! She is ridiculously cute, this little14 lb, 2 yr old, gray/black Lhasa/Skye Terrier (or whatever you want her to be). Hailey came to us with a broken pelvis, but she never complains. She pops around like a little bunny, but she is in the recovery stage and does not need surgery, thankfully. She should heal 100%. This little kissy girl loves belly rubs and hanging out with her foster sibblings and you. She just arrived, so we don't know that much about her yet…but what we do know is that she is loving and probably could go to any home, except one where she would be left alone all day. She is quiet and calm now…but once she gets her mobility back, we think she will have

personality personified! Stand by!
