Sex: Pair (one male, one female)

INTRODUCING HALO AND HAVEN...a precious pair of 4-5 yr old, 9 lb and 7.5 lb (respectively), white Shih Tzu, who have been

together all their lives. Their owner passed away and they were given to another senior who really could not properly care for them. When they got out of the house, they were taken to the shelter in Westminster. We were alerted to please get them out, which we did. We are not sure if Haven is the mom or the sister – our guess is that she is his mom and only slightly older than Halo. It's obvious Haven has had a few litters of puppies, but we don't know if Halo was one of them?

While they are very bonded, Haven does NOT like it when Halo mounts her and she will let him know! Other than that, they are two peas in a pod! Halo is more outgoing, will seek out love and attention and loves to cuddle and kiss. Haven is also very cuddly and snuggly, but isn't as forthcoming as Halo. They are amazingly sweet and wonderful on walks with other dogs and with people. They love attention! Halo likes to chase after toys, always beating Haven, and greet you with love and happiness! Haven chases after toys but doesn't know what to do with them once she gets there and acquiesces to Halo! She also makes you work a little harder for her love but when she gives it...there's nothing like it! Both are easy to care for – pretty calm and easy going – but they will bark from time to time to get your attention. They came with ear infections and have been easy to treat. Since they have never been apart from each other, we did not believe they should be separated. Now that they have been s/n, the mounting should end! Best home would be one where they have a yard to do their business but also go on walks – where family gives a lot of attention and kids over 8 yrs old are welcomed. Just keep the doors closed!
