

Harley

Breed: Maltese Mix

Age: 3-4 yrs

Sex: Male

Weight: 7 lbs.

MEET HARLEY....a petite, 7 lb, 3-4 yr old, white Maltese mix, who would jump on his “hog” and ride thru town if he had one! But, if he has you, he’s portable! Harley came from the street, his owners were never found, even after his brief stay in the shelter to find them. So, he became ours. He did have a cyst on his mouth, which we had removed to not cause further issues.

Harley is a lover, kisses sparingly, duplicates himself as the “energized bunny” when he is in the mood! He’ll chase after a toy, but if someone else is going for it, he backs off! When you rub his belly, he goes into nirvana! Harley likes to have conversations, which he will have by himself if you leave him alone! So, the best home for him would be one with a family to dote on him, or perhaps your “sidekick” or anywhere where he

will get a lot of attention. Another dog is not a must, but leaving him alone a lot, would be a no no. Apartment living might not be the best for him, as he will bark (does calm down) when he is sequestered (no crates for this boy). Harley would make a wonderful family dog...and is good with others... he just doesn't like to be alone (no separation anxiety tho). He just wants to be home and loved. Do you have a place for him??
