

Hudson

Breed: Lhasa Poodle

Age: 3-4 yrs

Sex: Male

Weight: 16 lbs

THIS IS HUDSON...a handsome, b/w, 16 lb, apx 3-4 yr old LhasaPoo who will steal your heart away with his love and kisses! Hudson came from the Riverside shelter a neglected, matted mess. When we shaved him and washed the shelter smell out after 4 shampoos, his coat is now shiny black and white and soooo soft! He is a lovebug, interested and curious about everything! He is a good eater, needs obedience training (likes to jump up on people and say hello!) but is very smart and wants to please. Hudson seems to understand where to do his business, but we never guarantee at your house! He loves to go on walks and meet and greet everyone on the sidewalk... he is interested in toys, but is not sure what to do with them! Hudson will never refuse a belly rub or an offer to sit on your lap! He might not stay there long,

because he will want to be off to check out the next sound or activity! He is relatively quiet unless he wants to get your attention or another dog barks. At adoptions, he barks nonstop...but not in the house! He doesn't like being alone but does not have separation anxiety – just wants you or another dog in the house to keep him happy and playing! Hudson is a fantastic mix and would be great in a family environment with kids over 8 yrs old! If this sounds like you, he's available now!
