Iggy

Breed: ShiPoo

Age: 1.5-2 yrs

Sex: Male

Weight: 10.6 lbs

HERE’S IGGY….one of the sweetest, most gentle, loving babies we have ever had! This b/w, 10.6 lb (probably a bit underweight), 1.5-2 yr old ShiPoo as best we can figure (heavy on the Poodle side with long legs and a ST underbite) landed in the shelter with his sister (a shih tzu mix). When their mother found them in the Carson Shelter, she took the female and left Iggy behind. How sad and confused he was. Iggy wants a lot of love and attention and will give it back 100x. It seems as if this kissy little cuddle boy has a bit of separation anxiety and does NOT like being left alone. He will probably scratch the paint off your door or a crate if he is contained. We think the best home for Iggy would be one where there are people around most of the time, and because he is used to having a canine companion,

another dog. This could resolve itself over time, but maybe not Iggy deserves love and attention and to feel safe and secure. He will follow you around, give you lots of snuggles, sleep on your bed with you (a must) and let you know how grateful he is you made him yours!! Is this a dog you could love?
