MEET IZOD...and to know him is to love him! This charcoal/white, 3 yr old, 13 lb. Lhasa/Tzu mix has a wonderful personality! He is sight challenged in one eye, which we believe was caused by trauma never treated. We think it gives him character ♥♥ Izod makes up for it in his loving, attentive demeanor and great manners. He is wonderful with other dogs and his foster buddies have helped bring him out of his shell. Now that he has come out of his shell, he shows his gregarious (but not too overbearing), playfulness. He is very submissive and will back off if another dog gets annoyed with him (which is rare). He loves dogs and humans of all ages....and would love to be a family dog. He will do best in a home where there is access to a yard, as he does not know how to use a doggie door and will mark when

he arrives – just needs patience as he is very smart and learns quickly. Now that he has settled in, he is doing 1,000 times better! If you are looking for an easy going, playful, happy, special boy....Izod is your guy – will you give him him a shot?
