

Izzi Liu

Breed: Teripoo ?

Age: 2-3 yrs

Sex: Female

Weight: 9 lbs

THIS IS MS. IZZI LIU...and she doesn't photograph nearly as adorable as she is! This petite, 2-3 yr old, 9 lb, grey heather colored, soft coated Teripoo (as best we can guess), is just a doll! When she came to us, this little girl was a frightened wreck. She is much more social now, but still has moments when she is spooked by loud noises. Time, love and socialization should make her feel safe. Izzi Liu is a character! She greets you with such glee you can see she no longer has a care in the world. She is very active and playful, like a puppy, so another small, active brother or sister in her life would be ideal and/or kids over 8 yrs old who will spend time playing with her! She is really too active for a mature home. She is a silly little cuddle bunny who loves belly rubs! She doesn't

shed and her coat is very soft! The ideal home for her will be one where she gets a lot of attention, exercise and love! She is pp pad trained and would do best with a yard, as she loves her walks but doesn't know what she is supposed to do out there!
