MEET JEDII...a warrior who is out to win your heart! This handsome, b/w, 11 lb, 2 yr old Shih Tzu mix, perhaps with Japanese Chin? is a lover. That being said, do not mess with his collar or neck as he appears to have been abused in some way or another and can get snippy. We are working to desensitize him to this, but this will take time and patience. Jedii seems to be potty trained and takes himself out to do his business in the backyard. We don't know his behavior without access to a yard. Jedii loves EVERYONE – human and canine alike! He will go up to any new human he meets, roll over onto their feet, and expect belly rubs! He doesn't seem to have been schooled in canine behavior though – without caution, he will put his face directly in the face of any new dog he meets – and no growls,

snarls, or snaps will deter him! This boy just wants everyone to be his new BFF and play with him endlessly! He's kissy with both humans and other dogs, loves to play with toys and be your buddy. That is why we believe he will best be suited in a home with at least one other dog to play with him. Jedi is a leader, so the canine family must be confident and not toooooo submissive. Jedi can be a bit willful, so a family who is experienced with dogs would be best for this happy boy. We recommend no children because of his current issue with his sensitivity to his neck/collar. Do you have a place in your heart and your home for Jedi?
