MEET JUBILEE...also fondly known as "Princess JuJuBee." This precious, cream/tan, petite 9 lb, 1.5-2 yr old, Maltese/Shih Tzu (as best as we can guess) is indeed a princess. We were dumbfounded that she was at the Devore Shelter as a "rescue only" dog. SMH....Jubilee is one of the very sweetest, happiest, easy going girls ever! She will stand up for herself when someone tries to bully her, but her favorite things to do include playing with toys, giving you kisses, cuddling up and eating! She needs to learn how to leave your fingers behind when she takes a treat...but she is getting it! She seems to be potty trained and will use PP pads if needed, but no guarantees at your house! She is very quiet...fits almost seamlessly in a pack and LOVES to play...especially with you! She pretty much

goes with the flow! We've only had her about a week...we still haven't heard her bark! She is sweet, petite and should be treasured. She will want to have a human and/or dog as a companion and both are preferable. She would probably be okay a few hours alone during the day, but why should she have to? BIG SMILE!! This is a doll you will love to life...and she will love you back! She's just about perfect in our book...and hopefully, yours too!
