MEET JULIUS…and we're not sure how we got so lucky to get so many really sweet dogs but he is one of them! Julius is a blonde, 13 lb, 3 yr old LhasaTzu, with the cutest under-bite you have ever seen! This poor boy was sooooo matted, that the vet had to shave some of the mats in order to neuter him! So painful…but he was very tolerant and patient. At our groomer, he was very scared because it didn't seem like he had EVER been groomed! Hated the clippers….but hair grows, and his will be beautiful! This is a wonderful boy…who LOVES to play with squeaky toys and even plays fetch! We always like our dogs to go with others…but this doesn't apply to Julius. He is okay with other dogs but appears to be dominant in a multiple dog arena (daycare) He is just starting to engage with his foster brother, but they can be caught in "bed" together! Still, we think he would be best in a home with oodles of love and a human to bond to. This boy is very, very, very affectionate and craves human love! He seems to be potty trained, but will use a pp pad. He is not a barker but he is a big kisser and lover. He is very loyal and would be fine with kids over 12 yrs old. He came to us very thin and we are trying to fatten him up a little! Julius is very special and deserves a special home…like all of them do! Love is just about all it takes…and a comfy bed and treats!
