PENDING ADOPTION

MEET MS. KARI…..an absolutely adorable 2-3 yr old, long eyelashed, tri colored, 17 lb, Lhasa Apso, who would never leave LHH if the founder could have another dog!! She is that special. Kari came to us with a sour tummy, but vet believes it was nerves or just lousy food at the shelter!

Kari is gentle, yet energized; kissy, playful and a toy-a-holic, very loving baby girl! She loves to cuddle with her person…play with her toys and actually fetch and bring them back…roll over on her back for belly rubs and give gentle little kisses to tell you how happy she is. Her long eyelashes give her eyes so much expression…you just have to fall in love with her! She is quiet and mellow…until her foster roommate wants to play and then she takes over! She's nobody's fool!!

The most comical thing Kari does is when she is getting ready to do her business, she twirls around like a top…whether #1 or #2 you never have to guess what she's doing! She is a pretty little girl, thru and thru and we love her to pieces…so will you!
