

# Kashi

**Breed: Shih Tzu X**

**Age: 6 yrs**

**Sex: Female**

**Weight: 13 lbs**

MEET KASHI...an adorable, 13 lb, 6 yr old, b/w Shih Tzu mix, who is precious, but don't let that cute little face fool you! She has moxie to boot! Kashi was adopted from us about a year ago, but when her new owners discovered that she has diabetes (which only requires one shot a day), they returned her. She is a wonderful dog, who loves to roll in the grass and get belly rubs...cuddle up with you...give you little kisses...and be your forever baby girl. But...she does have a dominant personality, so she needs a canine sibling who will let her run the show! She does settle down, and she is not at all aggressive. Her second favorite thing, after cuddling with you, is sitting on your lap!! Kashi would be great in a mature home, as she has a calm energy. She would love a canine companion but if you are around

to dote on her and love her up...she could be your one and only!  
She is happy, loves to go for walks and is a fantastic  
girl...are you looking for a wonderful companion? Look no  
further!!
