MEET KORY….an 8-9 month old, silver/white, 10 lb Shih Tzu is not the same dog he was when we first picked him up! He was originally purchased as a gift (a NO NO!!) and he was not the right fit for the new parents, who left him alone all day in a crate. He was shy, mistrusting, aloof in a puppy sort of way and totally unsocialized. Cut to: NOW!! He is as playful as they come. For a puppy, he is relatively mellow…except when playing with another dog! He LOVES his person and his canine siblings. He is a major cuddle-bug who loves toys, other dogs, people and even cats! What more could you ask for!! Great with kids…loves to give kisses (but can get a little over zealous and snip at your nose)! All in all, Kory is a dollbaby and very likely could be going home with this foster mom, who loves him to life!!
