MEET LACY...or you can call her what we call her "Velcro" dog! This petite, 6-7 lb, white, 3 yr old Maltese came from the San Bernardino Shelter with a nasty ear infection (which is why her ears are shaved). Baby was really good when they were flushed and putting meds in. She was frightened when she first arrived, and can be slightly skittish at first, but it only took a little bit until she latched on to her foster (the way she will to you!) Lacy prances on her walks like a little princess. She is quiet, just wants to be with you...and when she is on leash, if you stop to talk to someone, she will sit quietly at your feet. She loves loves loves to kiss!! She can be calm but she can also be very playful and is very loving. Lacy could be your one and only but she doesn't like being left behind and why should

she? She is portable and a good girl...easily could be a pocket pooch but wants to be your angel. She probably would not do well in a senior home, as she is a little busy! She will be your heaven on Earth....are you ready for her?
