

Landau

Breed: Woodle (Wheaten/Poodle?)

Age: 2-3 yrs old

Sex: Male

Weight: 18 lbs (underweight)

THIS IS LANDAU...a spectacular, long and leggy, 18 lb (underweight), 2-3 yr old, tan/black Woodle (our best guesstimation) – Wheaten Poodle mix. He sees just fine, through his gorgeous, icy-blue eyes (actually, one and a half blue eyes)! Landau was found in the desert, wandering around with no collar, no chip, intact and homeless. A two week search for his owners proved unsuccessful, so we agreed to take him on. Landau is like a puppy! He is high energy and he loves, loves, loves to play – and play some more! He is beautiful, with one blue eye and one brown! He loves to run, is fantastic with the other dogs and desperately needs a canine to play with and a family with kids to love him! He will need some training, but he is smart and is already learning the ropes. He seems to be potty trained

after a day or so...his family will need patience and love – and in return, they will get a phenomenal pupster. Is that possibly you!?
