

Livvy

Breed: Teripoo

Age: 3 yrs

Sex: Female

Weight: 15 lbs

*****ADOPTION PENDING*****

MEET LIVVY... a lucky happy pup, who is a 3 yr old, 15 lb, white and brown liver colored Teripoo! Livvy came to us after she was dumped in the South Central Shelter as a 10 month old puppy with hip dysplasia. She was so sweet, but she was unable to walk and we couldn't leave this little scruffy there all alone. She was under socialized, scared and had no idea what was happening to her.

CUT TO: Almost three years later, after very successful surgeries on both hips (now 100% healed), Livvy would love nothing more than to sit next to you or play and get belly rubs all day long. This does not mean she is without energy! She loves playing fetch and gets bursts of zooming energy that take her running around the house entertaining herself. Livvy is a wonderful girl who just wants to be your baby! She wants to please, seems house-trained (but we never guarantee) and just wants to be in her forever home!

It has taken a bit of time, but now that Livvy has been with us a while, her fosters really love her. Finally, we know what she needs. While she is high anxiety and didn't initially like other dogs, she really thrives with patient, playful yet calming pups and she should have one of her choosing! She is very playful now, but a patient environment, without chaos, will help her feel safe and loved and love is what she really needs. Obedience training will also help!

Livvy can be wary of new people and things, but when introduced slowly and securely, she is SWEETNESS OVERLOAD! She does pick and choose her friends, but she gets along so much better than she did in the past. She is getting more and more secure every day.

So, if you have patience and a nurturing dog, after a "get acquainted period" Livvy is good! We think she could go to a home with kids who are gentle and loving! She does get used to quick movements once she is in an environment she knows and feels safe in. On walks, she has gotten 99% better but still may bark to say hello!!&

If you are looking for a playful, sweet, loving pup, Livvy is your girl. Oh yeah, while some dogs favor women over men, Livvy has been successful with both! She wants to go to a home where there is her family who will dote on her. SHE NEEDS PATIENCE AND TRAINING. She loves her walks and likes to go out about 3-4 times a day. She is very smart, playful and we love her! So will you!
