MEET MARTINI...and if you are looking for a dog who will make you drunk with cuddles and affection, will stick to you like velcro and be your forever baby...this is your girl!! Martini is an 18 lb, 4 yr old, gray/black/cream Schnoodle (Schnauzer and Poodle) – as best as we can guess. She has very long legs and a

somewhat curly coat. See her before picture:

This little lady has had several litters of puppies and then she was literally tossed over the fence to a woman with a kind heart

and way too many dogs. Our friends at Dream Fetchers rescued 13 dogs from this home – most of them chihuahua – except for Martini and Jenga...who they gave to us. These dogs had over 100 ticks on them and were an absolute mess. It has taken Martini a week or so to start to come around and blossom and as she does...look out!! She is everywhere you are! She gives an abundance of kisses!! She isn't sure what toys are, but we're sure she can learn. She likes other dogs, but doesn't need one at home. What she does need is a little training, a lot of love and a safe, happy home to call her own. When she looks at you with those bedroom eyes, you can't do anything but give her the world and she deserves it! Kids over 8 yrs old would be great and welcomed – a yard, most definitely. While she is quiet, she really wants to be with you and give you back all the love you can give her...100000x over! Come have a Martini with this angel...extra dry with a couple of olives! She's waiting!!
