

Memphis

Breed: Havapoo

Age: 9-10 months

Sex: Male

Weight: 12 lbs

PLEASE DO NOT APPLY FOR MEMPHIS UNLESS YOU PRESENTLY HAVE A YOUNG, PLAYFUL DOG IN YOUR HOME.

THIS IS MEMPHIS! Not really sure why we picked this name, except it suited him! This busy boy is 9-10 months old, 12 lbs, sable/black and we think he is a Havapoo. Little Memphis was found on the streets of San Bernardino with no collar, no microchip and no ID. Of course, he was intact and doubtfully hadn't had any vaccinations. That has all been fixed...and so has he! We waited a month before getting him neutered to try and find his home. We couldn't imagine him being dumped, but we never did, but they obviously never came to find him. Now he is healing but he is still a very active puppy with all the goodies

that go along with being a baby! He LOVES to play with other dogs and another young, small, playful dog MUST be in his life and in his home. He can ruff and tumble for an hour...so his future sibling must have energy! He is a bit of a picky eater...but once he gets going, he's great! Memphis is so fun to watch...and he does settle down and loves to have his belly rubbed. He is very smart and learning potty training skills. Should have a yard and outside access for the best results! Memphis is just a country boy looking for a sweet home that will treasure him and give him all the love he deserves.
