MEET MILKSHAKE...and three guesses why we called him that? He looks like a delicious chocolate milkshake, but he is a delicious liver, 2-3 yr old, 13 lb Brussels Griffon/Shih Tzu, we believe, mixed with something – who knows what!? This little boy came out of Downey Shelter with a very snotty nose, honking like a duck! But, he's such a foodie, he took his medication easily and 10 days later no more kennel cough ! He has the sweetest demeanor, loves everyone, loves other dogs and should have one of his own! One thing we can tell you he does NOT like and that is being caged or in a crate. He did not want to be in a crate to get groomed, but he settled down. That was the

only time we've heard him bark!! Milkshake loves to be loved and get attention. He is cuddly, playful, happy, LOVES toys is and wanting his forever home. We'd love him to go to a home where there are kids, another dog and a family...he's one of the few dogs we have who is good with kids. Could you like a cool, long drink of a sweet chocolate Milkshake? Like forever?
