

# Mushu

**Breed: Shih Tzu**

**Age: 2 yrs**

**Sex: Male**

**Weight: 10 lbs**

MEET MUSHU...and what a doll he is! This tan/black mask, 2 yr old, 10 lb Shih Tzu is a treasure. He came from the SEAACA shelter, and why he was there for over two weeks without being adopted is a mystery to us! Healthy and sweet! He doesn't like being left alone, but he doesn't have separation anxiety that we have been able to determine. He just loves attention and exercise! He is not a dog who could lay around all day! He wants to go on hikes, long walks and play with you and/or another dog! He is very human oriented and loves to play with you, snuggle with you and get belly rubs from you. That being said, he would probably enjoy a canine companion because nobody can be around 24/7! He is a good eater, friendly with just about everyone ...kids over 8 yrs old would be welcomed. He

LOVES attention. Most of all, Mushu wants a family who will love and adore him! Toys would be an added plus, once he learns what to do with them! Same with kisses...eventually, he will use that tongue to say I love you! He seems to be doing his business outside, but he may want to make his "presence" known when he arrives! Give him love and attention and you'll get it back 100x! Training will be great for this young man so he can show you how smart he is and how much he wants to please you. What do you think?
