Noodle

Breed: Shih Tzu X

Age: 9 yrs

Sex: Male

Weight: 9 lbs

MEET NOODLE!! Yes, he definitely is a noodle at 9 lbs, 9 yrs, red and white and cute all over! He is a ShihTzu, but we think he has a little sumpin' extra in there! This poor fellow came from South LA and has been in the shelter at least twice, and we can't figure it out. We also can't figure out why he was never neutered, but he is now! He is still and always happy as a clam! He loves squeaky balls, giving you lots and lots of kisses and truly doesn't act his age. He needs a dental, which we will hopefully do when we have him neutered.

Noodle loves to go out for walks and and has wonderful energy… you would never know he is 9 yrs old. But remember that Shih Tzu live long lives. Plus, he couldn't be friendlier with

people of all ages and gender…including kids (over 8 please). He does greet every tree and bush on our walk and sometimes poops three times! His eyes are beginning to age, but that is really normal for this breed. That being said, he gets around like a pro and he's the dog that everyone always hopes to have! A sweet, petite shih tzu! Could this be the love of your life?
