Opie

Breed: Shih Tzu

Age: 3 yrs

Sex: Male

Weight: 13 lbs

THIS IS OPIE – a 13-lb, 3-yr-old, tan-with-black-mask Shih Tzu with 3 legs! This poor little guy was dumped in the shelter with a broken leg. When our vet opened up the leg to repair it, he realized the damage was too severe and had to amputate. But Opie doesn't doesn't let a missing leg slow him down! He plays fetch with the best of them! Loves his walks too! He can be a little possessive of food and toys, but we've been working with him on it. Opie is looking for a home where someone is around most of the time, as he doesn't like being left alone for more than a few hours at a time. Kids over 8 yrs old are welcome! He'd love another small, playful canine companion in the household as well – someone to show him the ropes! He seems to be housetrained in his foster home, but we never guarantee.

Do you have space in your heart for this adorable tripawd?
