

Ozzy

Breed: Brussels Griffon X

Age: 2 yrs

Sex: Male

Weight: 10 lbs

MEET OZZY...who has come miles and miles from when we first spotted him in the Lancaster Shelter, covered in matts and poop. This 2 yr old, 10 lb, gold Brussels Griffon X was so scared, he was considered rescue only. He really needed out STAT and still it took two weeks for the shelter to temp test him. Free at last, his fosters have done a remarkable job helping Ozzy to blossom! We have no idea what his previous life was like, but it wasn't good. His coat is still growing out from a "make do" haircut. Poor baby didn't even know what a dog bed or a toy was. Well, now he does! But most of all, he loves to play "zoomies" with his humans! Shy at first, once he feels safe, he is a lovebug. Ozzy would prefer being an only dog as he's still a bit unsure of life. As I write this, he is beginning to play with my dogs! He loves humans, but definitely shy at first. He's playfull, a cuddlebug, smart, potty trained (no guarantee at your house). Kids would probably not be a great idea, only because he can be a little fearful. HE IS NOT AGGRESSIVE

AT ALL. The one thing that Ozzy really needs is to be leash trained, which happened while he has been here! This little man keeps his fosters laughing with the best personality. Do you have room in your home and your heart for a zoomie boy who will keep you in stitches? Apply online!
