

Paris

Breed: Lhasa Apso X

Age: 4 yrs

Sex: Female

Weight: 14 lbs

*****ADOPTION PENDING*****

MEET PARIS....a flirty little 4 yr old, 14 lb, gray/white Lhasa Apso. This adorable little miss came from Apple Valley Shelter, where she had been languishing for a month and nobody came to her rescue! Her coat was very sparse and it looked like she had previous skin issues, but actually she has a low thyroid! Good food, lots of love and inexpensive daily meds is what this girl needs...and what she got and look at her now! She has a beautiful, full coat and she is a doll!

We think that Paris had been kept as an outside dog, because when she has to go on walks...she just goes in the middle of the sidewalk! We are training her that the grass is where it's

at!! Paris loves to zoom around and keep busy. She is affectionate and curious. She give lots and lots of kisses, is a great eater and seems to be potty trained for the most part or she will use a PP pad. We never guarantee anyway! We thought that Paris would like a home where there is another dog and even kids over 8 yrs old, and we still do, but she would be happy with someone who will give her a lot of attention, run on the beach, hike, be active because she loves to be. She can also be independent but she would rather have people to play with her, take her for walks and love her to bits. She needs to be kept on a nutritious diet as her coat needed to be brought back to life – and it has! Are you up for the task? We love this girl.
