Peppy

Breed: Morkie

Age: apx 4 yrs

Sex: Male

Weight: 9 lbs

MEET PEPPY….an absolutely precious, 9 lb, apx 4 yr old, cream colored Morkie…who has had a bit of a rocky road in his short life. His former mom found him on the streets when he was only a year old and a total wreck. Now, she has a young baby, is going to school and working and as much as she loves him, chose to give him up for a better life than she can provide. Peppy is a resilient little man who bonds like Velcro quickly. He has blended into our pack seamlessly. He LOVES his people – and is like a shadow who loves to follow you everywhere! He loves to be outside and definitely needs a yard and a family that will dote on him. He does get anxious alone inside, so he MUST go to a home with at least one other small, playful pup! He's very spoiled but he is also very smart….he knows some commands and is

very special…and very quiet for a Morkie! Whomever adopts this boy will be very lucky…but please don’t apply if you don’t have the criteria listed above, as this is what HE needs Please do not call or apply if you don’t have at least one other small, young, playful dog!!
