Weight: 16 lbs

MEET PINKY...oh Pinky, Pinky, Pinky...do you swear you are ShihTzu and Terrier (with an emphasis on Terrier!). Yep, sure enough this zaftig, 4 yr old is 16 lbs, almost gray/brown brindle and dad definitely was a Terrier. Her mom, Snookie, took a DNA test and sure enough, she is hers! Pinky, Freddie and Snookie all came from a home where their human is on life support, and so they needed to find new digs, so they gave them to LHH. Mom

Snookie:

Pinky is a character. She becomes attached rather quickly and doesn't want you to go anywhere without her! If you are leaving her behind, please make sure there is another human there to give her love! She does not like being left behind and she, like the rest of her family, loves to perch and purvey her surroundings. She is good in the car, great on walks and seems to understand potty training or will use a pp pad if available – but no guarantees at your house. What she may lack in ShihTzu looks, she makes up in personality! Her tail is about the only thing ShihTzu about her! She picks and chooses her canine friends...and she will bark at some people/dogs on a walk. She really is a special girl that deserves a lot of love...and would be best with a canine companion of her choosing! Do you think you could love this girl? We hope so!!
