MEET POPPY!! This little 2-3 yr old, white, 13.6 lb Bichon/Poodle mix was found roaming an industrial park that she called "home" for several days. When attempts to find her family failed, we were asked by Dream Fetchers if we could help her. Who could refuse this dollbaby? Poppy is very active, very human and dog oriented and the girl just wants to have fun! She is a GREAT kisser, eater…and she really follows directions! Poppy is very smart and knows how to please! While she seems to be potty trained, she has also made a few 'mistakes' – so we never guarantee at your house. One thing we can tell you is she does not like being left alone (without human or canine) and she will let you know! Fortunately, she settles down pretty quickly, but we would not recommend her for apartment living. Nobody can be home 24/7. If you are looking for a cuddler, kisser, sweet, good with everyone and everything pupster…this would be your girl. She is likely too much dog for a senior home, as she LOVES her walks and activity. Poppy would thrive in a home with kids who will actively play with her. A yard would be a plus! Does Poppy sound like a dog who would blossom in your home?
