

# Quigley

**Breed: Lhasa X ?**

**Age: 3 yrs**

**Sex: Male**

**Weight: 11 lbs**

**MEET QUIGLEY!! Who is affectionately known by us as Yoda, and no explanation is required!! We're not quite sure what his breed is...the shelter shaved him before we could determine that! Look at the picture below and you can tell us!! He is 3 yrs old, very long haired, 11 lbs and white/tan.**

**Quigley is a super affectionate boy, very human oriented, who loves being adored and loves to be with you. He gets a little**

jealous when other dogs try to steal your attention, but he loves and is fine with them, and he loves to play! He does not like being left alone and only barks when you leave...but CBD treats work great! He is so social, loves people, gives gentle little kisses and loves to cuddle. He is interested in toys, but not quite sure what to do with them. He is learning! When he arrived at LHH, he did not walk on a leash but his potty training is improving, as he wants to please. Another dog in the home will help to "lead the way." However, we do not believe his former life was very happy – so he needs extra love and to feel secure...and he will blossom even more as time goes on. Quigley's ideal home would include another playful dog, kids and a home (house vs. apartment because he can be vocal) where his family engages with him and demonstrates love and affection. Could that be your home? He's waiting!
