ADOPTION PENDING

MEET STEWIE!! This comical, 15 lb, tan/white w/ black tips, 3-4 yr old, Lhasa Shih Tzu, hails from the SEAACA Shelter and not a minute too soon! We picked him up on his last day, as he was rescue only because he was scared to death! We were told this, but all he did on the way home was kiss my face! He was a little uncomfortable being picked up – but he had just been neutered! That didn't last long, and now he is a favorite with his foster, who volunteers for CORE (giving COVID 19 tests at Dodger Stadium!) Stewie likes other dogs but doesn't have to live with one as long as he has a lot of human attention! He bonds very quickly to his people and is very friendly with everyone! He would be fine with older kids over 10 please, and another dog…but doesn't need either! He just needs you!! He is on his way to being potty trained, but he will need a schedule and patience. We never guarantee anyway!! Stewie would love a home where he could be with his person or persons most of the time…but that shouldn't be difficult right now!! Let us know if this sounds like you. He is portable enough to go everywhere with you…like he is with his foster mom!!
