

# Titan

**Breed: LH Chihuahua**

**Age: 6-7 yrs**

**Sex: Male**

**Weight: 6.8 lbs**

**MEET TITAN...a big spirit in a little dog! This gold/white, 6-7 yr old, 6.8 lb, LH Chihuahua, came to us needing loving care. I know, you are looking at the page to make sure you are at Lhasa Happy Homes...you are! He needed help and we wanted to help him. He was overlooked at Downey Shelter...he is tiny, his coat is sparse, but he is a little doll. His ears are ridiculously adorable, even though he doesn't always prop them both up. I think if he did, he might take off like the Flying Nun! Titan loves to play by himself, jumping from bed to bed or crawling under the covers to hide. His favorite spot is crawling under the covers down by your feet! Then he crawls up again just to cuddle! He also likes going under the bed! Mostly, he just wants to hang out with you and whomever else is around. He**

already knows his name! He can be independent and he is not yappy nor does he have separation anxiety. With good food and lots of love, we believe he will blossom like a rose. He is funny with other dogs who get in his face...he says, "none of that, buddy!" and definitely can stand up for himself. He is using the potty pads and doing his business outside (he likes to poop and walk at the same time)! He needs a home with a family who will dote on him and not leave him behind...he's very portable! He could go to a home with or without other dogs but not one where he is left alone all day (no more than a couple of hours, please). Does Titan sound like a dog who could complete your family? He is ready to go!!
