

ULLY

Breed: Shih Tzu

Age: 10 months – 1 yr

Sex: Male

Weight: 9 lbs

MEET MR. ULLY....a fabulous puppy who wants to call YOUR home HIS home! This ~1 yr, gold/white with black tips, 9 lbs (underweight) Shih Tzu was dumped in the San Bernardino Shelter and the family never looked back ☹️ Why? Ully was either kicked or crated and his hips were under-developed, so when he came to us, we thought he had a broken pelvis. We have had him on crate rest and given him a chance to heal, and he is doing really well. He now walks on a leash, which he did not do when he came to us, and is almost fully potty trained (but we don't guarantee anything at your house!!). Ully is a happy puppy who just wants to have fun! While he has been on bed rest, when he gets out to do his business, he wants to romp with all the dogs in the house! There is no question that he needs to have a canine

companion in his life to play with! That, and an abundance of toys! He is good with kids (over 8 yrs old please) and a true lover. He is young and will need his training reinforced and continued...but if you are looking for a wonderful family member, Ullly is your boy!
