THIS IS OUR SCARLETT….a white/tan, 14 lb, 6 yr old “puppy” who came from the SEAACA Shelter with a horrible case of kennel cough AND the cutest underbite we’ve ever seen!  What is her breed?  Good question.  She’s a Maltese mix with a little this and a little that!  Congenitally, little Scarlett was not born with the best teeth – but she was born with the best personality!  She had a very long coat, but it was not only matted, she had dreadlocks that had dreadlocks  and the shelter snipped them off before we could get a picture (but you can see below).  This little girl loves to snuggle with you and lay her body on your hand/arm/leg….getting as close to you as she can.  When she isn’t snuggling or giving you kisses, she is running around, playing like a puppy, so she needs another dog to romp and run with!  She has just discovered toys and is still trying to figure them out!  Scarlett would be great with kids, over 8 yrs old.  She does not have an aggressive bone in her body and would love to have “human children of her own!”  She seems to be potty trained, but no guarantees at your house!  We love this little girl and we know that whomever is lucky enough to adopt her will fall hard like we have!
